

January 2010

Hoping that 2010 brings each of you happiness, good health and prosperity!

As we kick off the New Year I wanted to congratulate each of you on a successful 2009! The year brought tremendous professional and personal growth to IQ with the addition of 16 consultants, the successful development and implementation of three major projects, the launch of our new website and the initiation of our job shadowing program with Franklin Regional High School. We created and participated in several fund raisers, we had a hole in one at our golf outing and welcomed several new babies to our "family"! It would take me pages to list all of the blessings of 2009!! Even though we are all shoveling snow and bundled up against the single digit temperatures, the outlook for 2010 is sunny and clear! We look to the continued growth of our consulting team and taking on new and challenging development projects! Our goal is to continue to exceed our customer's expectations by delivering expert solutions, products and services. Throughout the year we will be launching new initiatives, projects, charity events, etc, including this e-newsletter – designed to help keep you informed of the happenings each month. IQ Inc. has always believed that our people differentiate us from other organizations – thank you for your help in making IQ Inc. a success in 2009, and even better in 2010. Cheers!

Welcome New Hires!

Elena Talanova
